FORESTER'S PAINTING

The museum recently acquired this wonderful painting from the Forester's Hall on Red Hill Rd.

Painted by an unknown artist, it depicts live deer, instead of the usual ones shot with arrows.

The Ancient Order of Foresters was a friendly society which provided medical benefits to its members in the days long before Medibank or Medicare. Their traditions are linked with the mythology of Robin Hood and Maid Marion.

The painting is now in the church building at the museum.
